Minutes of the Fourth Client Meeting

Team 24

Tuesday 6th April 2021

Chair	Emily Yingyao Lu
Secretary	Eric Ka Yiu Ma
Members	Jason Yiu Yeung Ng
	Portia On Ki Ng

Apologies   None.

1. Time and Place

The fourth client meeting for the MCI Project was held in Zoom at 2pm on Tuesday 6 April 2021.

2. Quorum Announcement

The Chairman announced that a quorum of the group was present, and that the meeting, having been duly convened, was ready to proceed with its business.

3. Report of Work since Last Meeting

Emily Lu reported that we had modified the design of MindSpace by adding the 'Strategies' page, modifying the hint sentence on the 'Home' page and changing positions of weekly view and trigger keywords on the 'Explore' page. Client agreed with the changes made.

Emily Lu also showed the client the first demo version of MindSpace on Google Chrome with UI components of 'Landing' page, 'Login' and 'Signup' page, permissions enquiry modal view and tabs bar at the bottom implemented. Client concerned whether the permissions alert will be shown every time after users logging in. Emily Lu replied permission alerts shall not be shown to users again if the system has a record that the permission has been unlocked before. This feature has not yet implemented and will be implemented in the future.

4. Requirement Elicitation

4.1 Recommended Backend Framework

Fast API and Django were the backend technology recommended by client. Django was chosen as the backend framework for the development of MindSpace.

4.2 Backend Development of Authentication

Implementation of Facebook authentication, Google authentication and setting up Django server for email-password authentication were requested by client to be the planned outcome of milestone 1. In the scope of current project, Django server shall be developed in the local environment without deploying to any web instance.

4.3 Duties of Other Backend Functionalities

Loading the data into backend server and allowing mobile app to retrieve the data with RESTful API were suggested by client. Eric replied the project team will report in the next meeting about whether implementing these features before the end of this semester is feasible.

4.4 Dummy Data Set

Client confirmed that data set will be provided in the week of current meeting.

5. Other Issues

None.

6. Adjournment

The next meeting is a group meeting and will be held in Zoom at 2pm on Tuesday 27 April 2021. The meeting closed at 2:30pm.
